There's no better teacher than experience - and there is no substitute. My experience in the mortgage industry is my greatest strength.

When a client is important (and they all are) and you don't want last minute problems with your closing (which you never do) - it pays to work with a mortgage professional who has the experience to foresee and handle potential problems before they arise. Trust your clients to me and you can rest assured the critical financing portion of your transaction will be one thing you won't have to worry about.

When to lock - What program best fits a client's needs - How to obtain the best rates . . .

These are all questions that require more knowledge than simply taking a loan application. If it's your desire to work with a mortgage professional who is educated, experienced and committed to finding the absolute perfect loan for your clients, I can help.
